Six Per Cent. Hail Premium is Fixed Province Carries \$12,000,000 In Municipal Hail Insurance

The premium rate of municipal hail insurance in Alberta was fixed at six per cent, by the Hail Insurance Board on Tuesday morning. On a \$6 insurance this works out at about 36 cents per acre and about 48 cents per acre on an \$8 insurance.

The total losses for the province amounted to \$500,000, and the amount of insurance carried was over \$12,000,000. About June 15, before withdrawals had been carried out by southern farmers, over \$16,000,000 was being carried, but the withdrawals after this time with drew about half a million acres from insurance.

The rate fixed for withdrawal was on the following scale: From June 15 to June 29, 4 cents per acre; from June 29 to July 6, 8 cents per acre; from July 6 to July 13, 12 cents per acre; from July 13 to July 20, 16 cents per acre. According to the act, no withdrawals were permitted after July 20.

About 65 per cent. of all insurance carried was at \$8.

Bring Ocean Liners Nearer To West

Ottawa.—Western Canada is vitally interested in a scheme whose feasibility is shortly to be submitted for investigation before the International Joint Commission.

The governments of the United States and Canada are acting jointly in the submission to the commission of an enquiry into the deepening of the St. Lawrence river between Montreal and Lake Ontario to enable ocean-going vessels to proceed to the head of the lakes, and also to enquire into the joint development by the two countries of the three million potential horse-power.

If the plan, which is enthusiastically backed in the States, carries, it will be possible for "ocean-going vessels" to go inland by the new Welland canal route 210 miles from the gulf. It will cheapen and facilitate the handling of the western crops by reducing freight rates compared with the cost of railway transport, and would also enable freight to be taken far inland to the new "big water." The half million horse carriers now stopping at Port Colborne could go to Montreal.

W. J. Stewart, Dominion hydrographer, has been delegated by the Canadian Government to act in conjunction with Colonel Keller, of the United States War Department, in determining the terms of reference to the commission.

Sir Oliver Lodge on Atomic Properties

Hopes We Will Not Know Their Power Yet

Birmingham, Eng.—Sir Oliver Lodge, the eminent scientist, in an address at Midland Institute in connection with the memorial ceremony held on the occasion of the one hundredth anniversary of the death of James Watt, inventor of the steam engine, again touched upon the subject of atomic properties of matter.

Sir Oliver declared that the first indication of the properties of matter was in wireless telegraphy. He added that if the atomic energy of a source of matter could be released it would be sufficient to raise the German ships sunk in the Scapa Flow. He said, however, that he hoped the human race would discover how to use this energy until it had brains and muscles enough to use it properly, because the discovery were made, it would be used by the wrong people, this planet would be unsafe.

Kingston Editor Goes to Saskatchewan

Kingston, Ont.—J. Connelley, editor, has retired from the Whig editorial staff to accept the position of assistant to Prof. W. D. Bennett, of the department of political science in the University of Saskatchewan, at Saskatoon. Mr. Elliott is a graduate in arts of Queen's University, and a son of J. G. Elliott, ex-president of the Canadian Press Association.

Wonderful Wireless Tests

New London, Conn.—A radio experiment made off New London, in Long Island Sound by the experimental station, naval service, established communication, both telephone and telegraph, between a hydroplane flying nearly 2,000 feet in the air and a submerged submarine several fathoms in the water.

Would Free Land From A Tyranny

London.—Premier Lloyd George, speaking before the International Brotherhood Congress, as was expected, did not touch upon many of the important questions which the nation is deeply concerned.

The Premier was given an enthusiastic reception, and began by saying that a political platform was not involved at the meeting. "If I made a political announcement," he added, "I should feel that I was outraging the hospitality of the brotherhood."

He expressed the hope that all arrangements would be made and that the long drawn misunderstandings between Ireland and the rest of the kingdom would also pass.

"If I am looking forward," he continued, "to seeing wheat in all forms disappear and a new Britain spring up—a really free land, free from poverty, from the tyranny of man kind over mankind. Some people seem to think that I have accepted

German Troops For Baltic Front

All Warnings of Allies Are Disregarded in Monarchic Designs, Vorwärts Asserts

Berlin.—The assertion is made by the Vorwärts correspondent that the German militia in the Baltic provinces is rapidly growing and that officers and men are arriving there from Germany. Even the smallest place in Courland are strongly occupied.

Posters displayed in the office of Staff Captain Stowter, at Bank, Courland, say the correspondent, read:

"Fight for the father and the empire against democracy. We had rather die than be dishonored."

"Pretense is being made of the disbanding of a few units," the correspondent adds, "but true are being transferred to Admiral von der Goltz's army."

School Lands For Soldiers

Manitoba Lays Six Million Acres of Unimproved Lands Before Men

Winnipeg.—By an order-in-council, passed, Acting Premier Hon. Edward Brown and the provincial cabinet placed six millions of acres of unimproved farm lands on the market for returned soldiers. This is the greatest move made by the government up to the present time for the re-establishment of returned men.

The order-in-council provides for the establishment of an arbitration board to determine the price the province shall receive for its land. Geo. A. Metcalfe, administrator of succession duties for the provincial government, will act as arbitrator for the province of Manitoba. The federal government will also name a member of the arbitration board.

The land which has been thrown open is all unimproved, much of it suitable for farming. The place is known as the "Land of the Veterans." The value placed on the land in the public accounts of 1918 is \$18,000,000.

Fiume Isolated by Italy

Investigation Has Shown That Plan Is Impracticable

London.—Fiume has been isolated from the world by the Italian government, which is apparently taking steps to cut off the city from the sea. The investigation of the incident has shown, according to officials, that the plan to seize Fiume organized in Venice, also probably in this city is said to have been involved.

Copenhagen's Fortifications

Copenhagen, Denmark.—The Politiken learns that Mr. Petersen, the Minister of Defense, has submitted a proposal for the immediate demolition of the greater part of the fortifications of Copenhagen. This means that the whole of the land and a large part of the coast fortifications would be razed.

Will Bring Down The High Prices

Judge Robson States That Price Probe Will Cover All Necessities

Winnipeg.—Judge H. A. Robson, chairman of the board of commerce, declares that drastic action is being taken the cost of necessities will be taken by the board of commerce just as soon as the evidence at the different places has been taken.

No advance on necessities will be tolerated, he said, and the board aims to prohibit the sale of all fancy goods. The retailer who takes a profit in excess of one cent per pound on any sale of sugar is liable to prosecution. This applies to Winnipeg dealers and is not limited to the East. Mr. Robson emphasized.

Regulations covering all packing plants and including such products as butter, eggs, cured meats and cold storage products in general will be drafted shortly. The order will be very definite, Mr. Robson said.

The board will deal with all necessities of life, including boots and clothes. Mr. Robson said, "The violation will be made in every case where there is violation of the profit by dealers. The board itself may impose fines or levy damages and call proceedings against the guilty parties."

Mr. Robson was not ready to give an outline of the provisions to be made for checking up of violations of the board's orders, but declared that every complaint brought to the board would be investigated and dealt with immediately and to the full extent of the law.

Cost living probes are about to be instituted, Calgary, Edmonton and Regina, Mr. Robson said. He has just wired the appointment of men to take charge of these boards. Major Duncan Stewart will conduct the hearing in Calgary, S. W. Fries, of Edmonton, and James S. Rankin in Regina.

Irish Daily Newspaper Is Suppressed

Cork Examiner Accepted Announcement for Prospects of Irish Loan

Dublin.—The determination of the authorities to repress all manifestations of republican activities is shown by the suppression of the Cork Examiner, one of Ireland's chief daily newspapers.

The Examiner is a constitutional organ and opposed to the Sinn Féin, the Examiner printed a page prospectus of the republican loan, assuming that the prohibition of references thereto which existed under the censorship lapsed with the withdrawal of the censorship.

The military authorities, who have retained full powers, and raised the premises and removed part of the plant. The same for contemptuous attitude to the Dublin dailies, which refused the risk.

Ten Regiments

To Defend Fiume

Italian Nationalists, Although Suppressed, Are Still Active

Rome.—D'Annunzio's force, according to the daily Nazionale, consists of ten regiments, in addition to four battalions of Fiume volunteers. He has occupied a fortified line around Fiume as a strategic position. The citizens are supporting D'Annunzio, the newspaper adds, and are determined to destroy the town should resistance prove impossible. The nationalists are organizing demonstrations throughout Italy in favor of D'Annunzio. The government, however, is energetically repressing these.

Riga Peace Meeting

Copenhagen.—An important conference has been in session at Riga regarding not only peace with the Soviet government in Russia, but the formation of a Baltic federation, according to advisers from Latvian sources. There has been no actual acceptance of the Soviet government's terms, but the whole, it appears, that the Baltic federation has materialized to the extent that an agreement has been reached for a customs union of Latvia and Lithuania.

Would Popularize Reindeer Meat

Stefansson Says Canada Has Finest Climate in the World

Calgary.—"The finest climate in the world is the climate that is conducive to health, and I think that people praise the southern climate to the disparagement of our vigorous climate. We should never apologize for our climate," said Vilhjorð Stefansson, explorer, addressing an audience here.

Mr. Stefansson solicited support for his campaign to popularize reindeer raising, telling some amazing facts concerning this industry in the far north, and of the possibilities of the country, saying the northern zone had a great era of civilization before it. Reindeer was produced in the north, and the world, and brought a higher price today on the market than beef.

Robbery On Mail Train

Masked Men Robbed C.N.R. Express Passing Through Quebec

Quebec.—Five masked men entered and gagged the mail clerks on the C.N.R. Limited, Canadian National Railway, near Harfleur, and robbed the mail car of \$7,000 in silver, which had been shipped from Montreal for Halifax.

The Ocean Limited does not stop after she leaves Lévis until Harfleur, and at Harfleur the train had barely pulled out and the mail clerk foreman, when the back door of the mail door was opened and five men entered, pointing automatics into the faces of the mail crew, shouted the dramatic and business-like "Hands up!"

The bandits quickly bound and gagged the clerks, then made a dash to the baggage containing the mail. At St. Thomas the bandits escaped as the train slowed down. It is believed that they had an automobile hidden in the bushes. It is thought that they made St. John's, N.S., their headquarters, and were expected to attempt an escape to Maine.

Allies' Demand Agreed To

Austrians Cannot Participate in German Parliament or Government Affairs

Berlin.—The written declaration concerning Article 23 of the German constitution demanded by the Allies is reported in a Berlin dispatch to have been signed by the German government. The declaration requested was that the article in question, relating to Austrian representation in the German parliament, was not to be considered as transcending the action of the peace treaty forming German participation in Austrian affairs.

Praise for the Navy

Washington.—It is one of the high points, in acknowledging the honor conferred by Congress, General Pershing referred to the "brilliant part" performed by the navy in transporting troops and supplies and in maintaining sea communications.

The army was conveyed overseas with the minimum of safety and comfort, and with incredibly small loss. In this arduous service the general assistance of the navy and of Great Britain deserves our lasting appreciation," he said.

Wheat Crop in Alberta

Edmonton, Alberta.—W. F. Stevens, representing the Alberta government in the Grande Prairie and Peace River districts, estimates the wheat crop there to be about 8,000,000 bushels. A party of 64 members of the Edmonton Board of Trade, now touring the districts, a marked change is noted in the policy of the settlers, there being evidences of increasing mixed farming operations.

Rumanians Are Retiring

Budapest.—The Rumanian army has begun to withdraw from Budapest, a steady movement of trains is in progress. It is believed that the retirement will be completed within a fortnight.

Lone Bandit's Deed

Lawrence, Mass.—A lone bandit, imbedded with a gun in either hand, held up the Buffalo State bank here, carrying with more than \$200. Several persons are now searching for the outlaw.

Food Prices Drop In United States

Million Pounds Of Bacon In Storage

Price Cannot Be Lowered

Toronto.—W. F. O'Connor, K.C., vice-chairman of the Board of Commerce, proposes that Canadian farmers of bacon shall have an opportunity to get in some of the bacon sides which have been exported to the old country and sold at comparatively low prices. He intimated, after E. C. Fox, general manager of the William Davies company, and J. A. Nelson, superintendent of the Davies' retail stores in Toronto, had given evidence, that a million pounds of this commodity is at present locked up in the Davies plant, awaiting a day on which the English consumer has tired up the supply of Villshire sides he has on hand, would be consigned for home consumption.

To Mr. Fox's explanation that this was merely a matter to do that in Canada, and was sold at less cost in consequence, Mr. O'Connor wanted to know if it were not possible to sell the cheaper bacon in Canada. "We have come to the stage," he declared, "where the other bacon is too expensive."

Mr. Fox said the Canadians would not buy the cheaper bacon than that sent to England. "It may be worth while to test with this million pounds to see if you have difficulty in disposing of it," retorted Mr. O'Connor.

"I think it would be a good thing to try," he added.

The commission told Mr. Fox that the Canadian consumer was not getting a square deal when his bacon prices were regulated by European famine prices. "Personally," he said, "I think it would be a good thing to try to get a square deal for the Canadian producer, who is in control to say to the producers of bacon, 'You have got to supply your Canadian trade at fair prices before we allow you to forfeit that stuff out of the country.'"

Mr. Fox repeatedly denied that the Davies company was interested in any conspiracy to combine "then why is it," asked E. C. Fox, "that the price control board is not doing anything, that the prices remain about the same for one week in the market?"

"I suppose because we all know about what the other fellow is doing and we all have the same selling margin," was Mr. Fox's reply.

Mr. Fox promised to produce a chart giving detailed information at all costs, of selling prices and profits.

Superintendent Nelson, of the Davies company, said his efforts were directed toward keeping prices down and reducing the volume of the stock. The higher the selling price of any commodity, the less his concern could make out of it, he said.

At the conclusion of Mr. Nelson's testimony, Commissioner O'Connor said: "You have undertaken to say that you are not making any profit. We will find out what the profit is before we are done here."

Russian Front Combined

Paris.—Through the capture of Onga by the anti-Bolshevik forces, communication has been established between the allies on the Archangel and Murmansk coast fronts.

French Troops Are Sent To Armenia

Paris.—Ten thousand French troops have been sent into Armenia through Mesinas and Alexandretta, according to an understanding reached by the British and French for a re-division of the forces in Asia Minor. These troops will replace the British troops for the most part, and while the number is not large enough to keep a line of communication for north into Armenia, it is generally agreed the French will have a standing effect on the Armenian situation.

It is not known how soon the French forces will be able to reach Alexandretta and Mesinas.

To Allay Unrest

Less Likelihood of a Railway Strike Among Shoppers

Toronto.—There is little likelihood of labor trouble among the railroad shippers on the Canadian railroads, according to J. Clarke, general representative of Canadian railroads for the International Union of Bootmakers, the headquarters of which are in Kansas City.

Mr. Clarke is in Toronto at present to allay unrest among railroad shippers, who are uneasy because of the rumor of a strike among their employees, which came before the Canadian Railway Board in May and were deferred until the demands of the United States railway workers were satisfactorily settled.

Brazilian Property
In Germany Is Safe

London, England. — A German wireless message states that it has only now become known in Germany that in Brazil the view is generally held that Brazilian property in Germany will be confiscated during the war. In contradiction of this it can be stated that such property has been placed under the protection of a compulsory control.

TEETHING TROUBLES

Baby's teething time is a time of worry for most mothers. Baby's little gums become swollen and tender; his bowels get out of order and constipation, colic or even diarrhoea sets in. To make the teething period easy, Baby's Own Tablets should be given the little one. These tablets regulate the bowels and soothe baby good naturedly. Concerning them, Mrs. M. J. D. LeBlanc, Montreal, writes: "I have six years, and have found them indispensable. To my mind, nothing can equal them in allaying the fever accompanying teething. I would not be without them and can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Indemnity for New Zealand
Ottawa. — The statement attributed to Premier Massey regarding New Zealand expects to receive £10,000,000 indemnity from Germany is the subject of comment among members, and there is likelihood of question in the house as to what Canada's share is likely to be. Canada's statement of claims has already been filed but, it is emphasized here, what will be received cannot be estimated until all claims have been filed and the ability of Germany to pay has been determined.

Hundred Bushels To Acre

Eighteen Acres Yields 1,800 Bushels of Oats on Portage Plains
Portage la Prairie, Man. — Eighteen acres of oats yielded one hundred bushels per acre on the Portage Plains at Oakland. The land had received careful attention, but the total of 1,800 bushels was a surprise even to the producers. The oats were of ordinary summer variety. The land on this farm has been cropped for 40 years, and a return of this quantity indicates the marvellous soil quality of Portage Plains. The oats sold at Oakland on car at 82 cents per bushel.

New Altitude Record for America
Dayton, Ohio. — A new altitude record for America was set at McCook aviation field by Major R. W. Schroeder, where he ascended to a height of 29,000 feet. The world's record is held by Capt. Lang, of the British Royal Air Force, who climbed to a height of 30,000 feet with a passenger.

They should read the letters received by the manufacturers of Dr. J. D. Kellogg's Asthma Remedy from hundreds of cases even as long-neglected cases as this famous preparation brings prompt help.

Manitoba May Build Road
Winnipeg. — If the Dominion government will not build a 27-mile rail line to the rich mines north of The Pas, the Manitoba government will consider the feasibility of constructing a provincial railway. Hon. Edward Brown, provincial treasurer, intimated. Mr. Brown stated that members of the provincial government recognized the necessity of such a railroad to enable the mines to operate, but that the building of such a line was up to the Dominion government.

U.S. To Retain Enemy Ships
Washington. — Some of the seized German liners are to be retained permanently by the United States as part of the army transport service. Chief of Staff March told the House Military Committee.

President Wilson has definitely decided on the allocation of the ships, he said, but asked to be excused from discussing the plan of disposal, which would be announced soon.

Korean Capital Occupied
By Japanese Soldiers

Every Part of City Has Been Occupied By Japanese Troops

Tokio. — Since the attempt to assassinate Baron Saito, governor of Korea, at Seoul on September 2, every part of that city has been occupied by Japanese troops and the place is virtually in a state of siege. The soldiers are still at large, although a number of persons suspected of being implicated in the plot are under arrest.

The Japanese press takes the view that the bomb outrage was to have been expected, pointing out that it was almost a logical development. It expresses the opinion that the appointment of a naval officer as governor of Korea was probably inopportune and the result of poor judgment, as it only served to inflame the Koreans, who had hoped that a civilian would be named. Takekoshi, minister of the interior, as a national party, takes a similar view. He said that a civilian might have calmed the Koreans, who regard Baron Saito as a man of the sword, like his predecessors.

Cheese By Parcel Post
Ottawa. — According to Mr. P. Roy, Commissioner-General of Canada in Paris, France, Canadian cheese has been shipped to Paris by parcel post. It appears that while in France Mr. John F. Ryan, of Montreal, presented to a number of merchants in Paris samples of cheese which he had received by parcel post. The samples were sent to him in round 10-pound cylinders which had been dipped in paraffin and wrapped in ordinary wrapping paper. The cheese was received 34 days after it was mailed, and it is said to have arrived in excellent condition.

GIRLS: LEMON JUICE
IS A SKIN WHITENER

How to Make a Creamy Beauty Lotion

The juice of two fresh lemons strained into a bottle containing three ounces of water, is sufficient for a whole quarter pint of the most refreshing and skin softening cream. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knowing that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whiter and brighter.

Just try it! Get three ounces of orchard white by any drug store and mix with the lemon juice and make up a quarter pint of this sweetly fragrant lemon lotion and use it daily into the face, neck, arms and hands.

SAYS CORNS LIFT
RIGHT OUT NOW

You restless men and women who are pestered with corns and who have at least once a week lived in awful death from hotjacks and blisters, are now told by a Cincinnati authority to use a drug called frezzone. It is a matter of an ounce of frezzone will root every little or any of them out of your shoes. Frezzone is relieved and it is a matter of an ounce of frezzone will root every little or any of them out of your shoes.

It is a sticky ether compound which dries the moment it is applied and simply shrivels the corn and then it is rubbed or even irritated the surrounding tissue of skin. It is a matter of an ounce of frezzone will root every little or any of them out of your shoes.

Plaque for Veterans

Ottawa. — The scroll which, by a memorial plaque, is to be issued by the British government to the next of kin of those who have fallen in the war, will shortly be distributed in Canada by the Department of Militia and Defence. It has been found impossible to issue the plaque at the same time as the scroll, owing to the necessity of building a special factory for its manufacture.

This is to certify that I have used MINARD'S LINIMENT in my family for years, and consider it the best liniment on the market. I have found it excellent for horse flesh. (Signed) W. S. DINEO. "Woodlands," Middleton, N.S.

Australian Trade With Japan
Sydney, New South Wales. — Japanese exports to Australia have overtaken the exports of the United States. This fact was brought under the notice of the New South Wales Government by Mr. J. B. Sutor, their commercial commissioner in the east. Mr. Sutor blamed the restrictions placed on such exportations to Japan as wool for this unfavorable position, and declared that when all restrictions were removed it was highly probable that there would be a handsome balance of trade in Australia's favor.

THE EXCELSIOR LIFE INSURANCE CO.

Calgary, Alta. — A new colony for returned soldiers who are tubercular, and who are inclined to try farming, is to be established shortly by the Soldiers' Land Settlement Board.

The selection of some 20 sections of suitable land in the reserve for this purpose will be made within the next week or two. The inspection of a large area from which these 20 sections will be selected is now being made by officials of the Soldiers' Land Settlement Board of Alberta.

The land upon which these patients will be settled will be selected west of Cardston, and is ideal for the purpose, which is to place these soldiers who have suffered from the effects of gas or are of tubercular complexion upon land where the climate and requirements will not be heavy, but where the climate is suitable for their constitutional recuperation.

British Officers' Pay Is Increased

London. — A royal warrant has been issued substantially increasing army pay. Second lieutenants are to receive £294 and £448 sterling annually if married and £330 to £375 if unmarried; lieutenants, £448 to £503 if married, and £375 to £448 if unmarried. Captains are to receive £1,242 if married, and £1,184 if unmarried. The increase given to men are understood from those already announced.

No Deviation From Evacuation Policy

When Poms Become Closed British Troops Will Have Left

London, England. — When intervention of the War Office regarding certain allegations made by Col. Sherwood Kelly to a British newspaper in respect of the North Russian operations, a high official denied that there was or had been even the slightest intention of deviating from the settled policy of British evacuation from North Russia, and gave the assurance that when the ports became closed it would be found that the British troops would have left. The general on the spot have their orders, which apply to North Russia generally, and there is no intention of holding on to Murmansk.

The Dominion Chautauquas

The following letter will be of interest to those who subscribe their names to a contract for an Oyen Chautauqua.

Mr. W. V. Miller,
Oyen, Alta.

Dear Mr. Miller:

Miss Addie Johnston, our representative, who has recently visited Oyen has brought me a report on conditions of affairs there. I regret very much that it seems inadvisable to us to accept the contract that she has secured at Oyen. We are afraid that the Oyen Chautauqua will not be a success because of the local conditions and because of the fact that so many of the citizens seem to have misunderstood the Chautauqua movement.

I regret that this letter will not reach the people who should be reached, but let me give you a few facts that if you will give to others in your community may help the situation there for sometime in the future. The Chautauqua is not a moneyed institution, is not an incorporation or a company limited. It is an organization of educators that are trying to bring to the communities instructive lectures from various parts of the world and clean wholesome entertainment at as low cost as possible.

We are offering this fall six splendid programs of lectures and entertainments that come from Australia, New Zealand, England, United States and Canada. These programs we are presenting to the people at the price of \$1.75. We know that your committee as some business men and farmers appreciate the fact that this enterprise is not run with the view of making money although we do hope to be able to pay our way and to make some money not alone as far as Chautauqua is concerned but our own personal affairs. This year we had 180 circuits established in which Chautauqua programs were given. Every town has planned for a return Chautauqua and has promised better support than ever, except one town on two different circuits and this town has already written in asking that we send a representative to them to complete arrangements for the coming year. This I am sure speaks for itself.

I have often thought that Oyen would make a successful three day Chautauqua if the right attitude could be developed on the part of the local committee. We are, therefore postponing our plans to visit

You until some future date. If we can assist in anyway to establish a better understanding of the work we are in with the people of your community, we shall be pleased to hear from you. We shall be pleased to have you call at our office in Calgary sometime when you are in the city.

Thanking you for your willingness to assist in this work of ours I am,
Cordially and sincerely yours,
The Dominion Chautauqua
J. M. Erickson, Manager.

The aims of this organization are fairly well known throughout the country, and their entertainments are clean and wholesome and brought to the people at as low a cost as is possible, though most people will question the statement that the

Chautauquas are not run with a view of not making money.

It is the opinion of many people that the contract to secure a local chautauqua is too one-sided, and the question is often raised, "Why cannot the chautauquas come in on their own merits?" The contract which is usually signed by local business men, is quite a stringent one, and the guarantors, who subscribe their names to the contract have to make good any difficulty that may occur. In other words a few men make themselves financially responsible for the entertainment of any who care to come into town to attend same.

The only satisfactory way to have a chautauqua here is to have a much larger number of guarantors, which includes a large number from the country.

The question of entertainments should be of interest to everyone in the district. Local talent should be brought to light. Good local talent is always appreciated, and we had an excellent example of this last Monday, when the pupils of Mrs. Edward Marlett, gave such a satisfactory account of themselves, at the musical recital given in the Oyen Opera House. This should encourage those who are hiding their light under a bushel to come forward. There is no reason to our minds, why the district could not furnish its own entertainments. In the past we have seen some very credible performances staged by local people and we should like to see a revival of this kind of thing.

Church Notices

During the absence of the pastor, R. E. Finlay, the following schedule of services has been drawn up:

Sunday, Oct. 5, services will be held by Mr. Robt. Smith at Superba 11:30 a.m., Benton 3:30 and Oyen at 7:30 p.m.

Sunday, Oct. 12, services conducted by Mr. F. J. Whitlock at Spring Valley 1:30, Kirkwall 3:30 and Oyen 7:30. Cannon service will be held by Mr. Jno. Maidment.

Sunday, Oct. 19, Mr. Robt. Smith will conduct the services at same hour and place as on October 5th.

For the Synod, Oct. 26, it is expected the Pastor will be available for his regular work.

The Pastor, Church Officials and patron of the Union church desire to publicly express their gratitude to Mr. Hicks, the manager of the live-ry barn, opposite the Red Senary garage, for his kind offer to shelter, free of charge, all horses used in conveying people to church on Sundays, while the church service is in session.

The Why? of Another Victory Loan

WHEN, on the morning of November 11th, 1918, the guns were pushed and glad tidings flashed across the world, there followed with the Nation's Prayer of Thanksgiving, one yearning query, which found echo in the faster beating hearts of wives, mothers, fathers, brothers, sisters and sweethearts. That query was, "How soon will our boy be home?" And, from France and Flanders, from Italy and Egypt, from Palestine and from far-off Siberia, there came an answering echo, "How soon, how soon, may we go home?"

CANADA caught the spirit of these longings, and at once resolved to satisfy them. It was an appalling task. Shipping was tragically scarce. The composition of the Army of Occupation had not then been settled. And other parts of the Empire as well as Canada were looking for the speedy return of their men.

THE problem was this. The half-million men that Canada had overseas had taken more than four years to transport to the field of battle. To bring them home in a few months was a gigantic undertaking—one to tax all Canada's ingenuity and resources. Canada solved the problem, but it meant crowding into a few short months, an expense for demobilization which it was impossible to foresee.

THEN, too, besides the sentimental aspect of the necessity for bringing the men home quickly the economic side could not be overlooked. That was, to transform efficiently and speedily the nation's army of fighters into a national army of workers.

Need Divides Itself in Two Parts

(a) To finish paying the expenses of demobilization, and the obligations we still owe to our soldiers.

(b) To provide national working capital.

The obligations to soldiers include:

That already incurred cost of bringing home troops from overseas.

The payment of all soldiers still undemobilized. This includes more than 20,000 sick and wounded who are still in hospital, and who of course remain on the Army payroll till discharged.

The upkeep of hospitals, and their medical and nursing staffs, until the need for them is ended.

These three items alone will use up at least \$200,000,000 of the Victory Loan 1918.

Gratuities

There is also the gratuity which has been authorized, and has been and is being paid to assist soldiers to tide over the period between discharge and their re-adjustment to civil life.

For this purpose alone, \$61,000,000 must be provided out of the Victory Loan 1918, in addition to the \$59,000,000 already paid out of the proceeds of the Victory Loan 1918.

Land Settlement

Furthermore, soldiers who desire to become farmers may, under the Soldiers' Land Settlement Act, be loaned money by Canada with which to purchase land, stock and implements. The money so advanced will be paid back; meantime each loan is secured by a first mortgage. Up to August 15th, 29,495 soldiers had applied for land under the terms of this Act; and 22,281 applications had been investigated, and the qualifications of the applicant approved.

For this work which, with the Vocational Training and Soldiers' Training Service Departments, embraces the major activities of the Department of Soldiers' Civil Re-establishment, an appropriation of \$57,000,000 is necessary.

Those who give thought to our outstanding obligations to soldiers, and to our need for national working capital, cannot fail to be impressed with the absolute necessity for the

The answer to the question "Why does Canada need another Victory Loan?" divides itself into two parts.

These national expenditures are war expenses. They will be expended readily by every citizen who gives thought to the fact that Canada faced following the Armistice, and to the success with which she has met it.

National Working Capital

Canada needs national working capital, so that she may be able to sell on credit to Great Britain and our Allies the products of our farms, forests, fisheries, mines and factories.

You may ask "Why sell them if they can't pay cash?" The answer is, "Their orders are absolutely essential to the continuance of our agricultural and industrial prosperity."

The magnitude of these orders and the amount of employment thus created, will depend upon the success of the Victory Loan 1918.

The "Why" of Credit Loans

Farmers and manufacturers (and that includes the workers on these orders) must be paid cash for their products. Therefore, Canada must borrow money from her citizens to give credit, temporarily, to Great Britain and our Allies. Actually, no money will pass out of Canada, for Canada does not give credit, other countries will, and they will get the trade, and have the employment that should be ours, to distribute amongst their workers. And remember, we absolutely need these orders to maintain employment. If we don't finance them business will feel the depression, employment will not be as plentiful, and conditions everywhere will be adversely affected.

For Transportation

Money must also be available to carry on the nation's shipbuilding programme, and other transportation development work.

For loans to Provincial Housing Commissions who are building moderate priced houses.

These, then, are some of the things for which Canada needs national working capital. She is in the position of a great trading company, and her citizens who buy Victory Bonds are the shareholders.

Piano and Violin Recital Draws Big Crowd

Mrs. Marfleet's Pupils Give Excellent Entertainment in Oyen Opera House

The pupils of Mrs. Edward Marfleet, gave a very satisfactory account of themselves at the musical recital which was held in the Oyen Opera House last Monday, and their work reflects great credit on themselves and their talented teacher.

Each item on the programme was rendered with ability and style seldom attained at an entertainment of this kind. The programme was a well chosen one and encores were repeatedly asked for and given. The net result is a striking example of what can be accomplished by local talent under capable leadership.

With the space at our disposal, it is impossible to single out any particular number for special praise, nor do we consider we could do this with justice to the other performers. Each number was well rendered and those taking part have every reason to be proud of themselves.

In the next column, the programme of the recital is given.

Mary Pickford Will Be the Attraction at the Opera House Next Friday and Saturday

"M'LISS" Another Film Success of this famous screen star.

Patrons of the local picture house will be given the opportunity of seeing the picturization of Bret Harte's famous story on Friday and Saturday of this week, in which Mary Pickford plays the star part.

The photo play is full of thrills, and in the character of a wild, untutored fifteen-year-old haram-scarum girl, with a heart of gold, Mary Pickford is given a splendid opportunity of showing to advantage her exceptional abilities which have made her so justly famous and endeared her to the hearts of all lovers of good screen pictures.

Show starts at 8.30 each evening. Price 50 cents and 25 cts.

Oyen Women's Institute

The Oyen Women's Institute which dissolved while the Red Cross Society held sway, has revived with the initial membership of nineteen. On Thursday September 18th, the first meeting was held in the school-house and officers for the remainder of 1919 were elected as follows Pres., Mrs. Crockett, Vice-Pres., Mrs. S. A. Miller, Sec.-Treas., Mrs. J. P. Kerr, Directors, Mrs. Hancock, Mrs. Stillings, Mrs. Haan, Auditors Mrs. Walker, Mrs. Alexander. It was decided to meet the third Thursday of every month at 2.30 p.m. in the vacant room of the school-house.

So much has been accomplished by neighbouring and other Institutes and so great is the need of a body of workers in our own town that there is no lack of inspiration for effort. Relief work and doing something toward getting recreation for the school children are the two problems before the women at present. Don't leave it to the President but come and add to the interest of the meetings. It depends upon each member whether this proves to be a live and helpful organization.

Last Friday a special meeting was held in the school house when arrangements were made for a sale of home cooking.

Another meeting to complete these arrangements will be held on Wednesday evening, October 1st, at 8 o'clock at the home of Mrs. Affleck. The sale will take place on Saturday October 4th in J. W. Robinson's office on main street beginning at 11 a.m.

Mr. A. C. Andersen's auction sale which took place last Monday was well attended and prices obtained were satisfactory. B.H. Dial, auctioneer was in his customary good form.

The Peterson Motor Co. are going to sell a number of second-hand Ford cars, by public auction on Saturday, October 11th. As they require more space in their garage for winter storage and repair work, these cars will be sold without reserve.

Buying Bonds Is Common Sense Act

Double Appeal to Business Instincts of Western Farmer

Investing of profits in Victory Bonds has a particular appeal to Western farmers. The action is a sort of merry-go-round in which the farmer makes money at each turn. Not only does he gain a good rate of interest, but he assures himself of a market for his products at profitable prices.

The big business of Canada is built on foreign trade. This foreign trade has to be financed. Victory Loan proceeds provide the credits. The farmer is provided with markets.

The grain grower of the West is receiving \$2.15 a bushel for his wheat and proportionately good prices for his other products. As a matter of good business, the Western farmer is urged to invest every cent of his earnings that he can spare in these bonds.
